

NEW SINGLE FAMILY DWELLING

120 – DAY ELECTRICAL APPROVAL

Permit #: _____
Address: _____
Date: _____

The permit holder hereby requests approval for electrical service on the permit number and property address referenced above, for a period not to exceed 120-days. Such request is made in order to complete construction of the structure. It is understood that the Department of Inspection and Fees may grant approval based on the following:

1. Completion, inspection and approval of the electrical rough-in and service equipment including panel boards by the department's electrical inspector.
2. Only one (1) branch circuit supplying 120V duplex receptacle protected by G.F.C.I. will be allowed unless otherwise approved by the electrical inspector upon sufficient justification being submitted.
3. All equipment and devices shall be secured and made safe, and inspections completed prior to the department contacting the power company.
4. The Contractor or Owner assumes all responsibility and liability for the electrical installation during the 120-day electrical approval and will indemnify and hold harmless the City, its employees, assigns, etc. for damages caused by the use of electricity during the 120 days.
5. The Contractor or Owner further understands that they shall request final inspections and approvals by the Department of Inspection and Fees prior to permit power being released to the power company or the structure being occupied.
6. At the end of the 120 days the power company will be notified to disconnect the electrical power from the building unless a final inspection and electrical approval has been completed by the Department of Inspection and Fees.
7. Contractors that do not follow guidelines of this signed agreement will not be allowed to participate in the 120-day contract agreement.
