5. Agenda item: Resolution for E-911 department (Public Safety, Emergency Management) which was previously a division of the Police department will be a new department with Keith Moffett as Director. Lt. Andrea Grinstead, Sheriff’s Office, is serving as liaison to assist with the E-911 conversion. Sheriff Davis concurred with this being a part of the County and not the Sheriff’s Office because of Fire and EMA responsibilities and dispatch.

7. The City of Macon, again, won the annual Distinguished Budget Presentation Award which validates that we are meeting national accounting standards.

8. Letter of Request sent to Ralph Nix for a proposal for the Regional Commission to oversee the Geographic Information System (GIS). The RC has the proper software, equipment, and manpower needed to properly run the GIS system; the County does not. The Sheriff’s Office and Engineering department will continue to do mapping and research with RC oversight.

9. Bob Brown of BTBB has been asked for prices for additional design work to be done. BTBB began consolidation facility design changes under the Consolidation Task Force, and is being retained to continue office reconfigurations, restructuring, and office renovations such as the old Sears building, the Courthouse, Sheriff’s Downtown Annex, and other office changes. The contract is presently still with the Transition Task Force and ends January 1, 2015. Commissioner Lucas would like an update at a later time on the automatic 5% increase in the contract with real numbers provided.

10. Macon and Bibb County signs are being changed as needed in coordination with GDOT as needed.

11. Davenport & Company recommended as financial adviser and will be going to Washington to meet with Moody’s with our latest financial updates and for a review of the County’s bond rating.

12. The new 800 MHz system turn switch should be ready to go by February 15th. Monroe County and other surrounding counties have expressed an interest in this being a regional concept.

13. Hand-out - A list of numbers to call for problems with dogs includes the numbers for animal welfare and others. Commissioner Lucas requested these numbers be
included on all lists disseminated, Channel 14, and other media. Chris Floore will facilitate this action.

14. Jeffersonville Road Project – Estimates provided. The County will be responsible for soft costs which are all appraisals and legal work required to acquire the parcels. The cost for acquiring right of way is estimated at 7.5 million dollars over the next two years. The County is to be reimbursed by the Georgia Department of Transportation. Dave Fortson stated acquisition of parcels has begun according to GDOT’s schedule. Mr. Fortson gave an overview of what has been done and upcoming projects. The Jeffersonville Road Project is part of the Bibb County 1994 Road Improvement Program (SPLOST). It will take approximately two years to acquire all parcels. Construction is to begin in 2015.

15. Garbage pick-up – Handicap garbage pick-up was addressed. Commissioner Lucas asked if Jones County services are now totally with Jones County. Mr. Walker responded that they are. Mayor Reichert stated that in the future, if Jones County is interested, an intergovernmental or community improvement district agreement with Jones County could be considered at a later date.

Mayor Reichert suggested this was an item that could be placed on a future Work Session agenda. Commissioner Tillman had questions on where Ticket Master outlets were located and how the number of locations could be increased to better serve the community. Attorney Drake stated the contract had been changed from two five-year renewal terms to two one-year renewals after the initial five-year contract term. Some of the upcoming events at the Coliseum and Auditorium include Bill Cosby, Willie Nelson, “Macon Pops” which includes Grammy winning dancers, singers and arranger. There will possibly be pink ice for ice skating during Cherry Blossom and the upcoming Mary Kay Convention. There are currently 26 shows on schedule. The Engineering department was asked by the County Commission to come up with a plan to make this road accessible for emergency vehicles and with water lines for fire protection would be added at completions of the project. The attorneys for the project recommended condemnation to acquire all parcels necessitated by problems encountered in gaining clear title to all the remaining parcels. These will be “friendly condemnations” except for one parcel where the resident has a concern over the purchase price.
