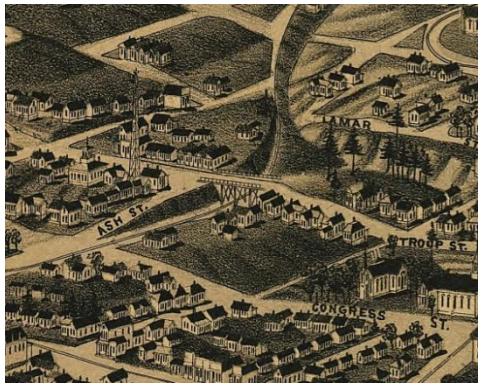
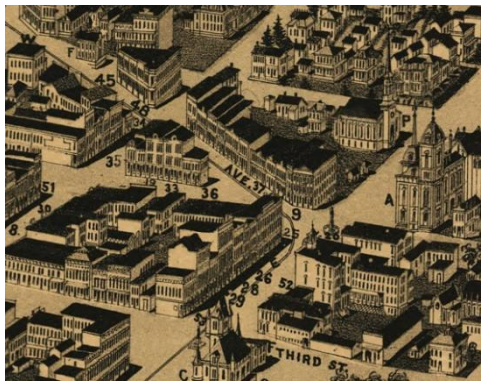
CITY OF MACON





Second Street Transformation

City Council Work Session

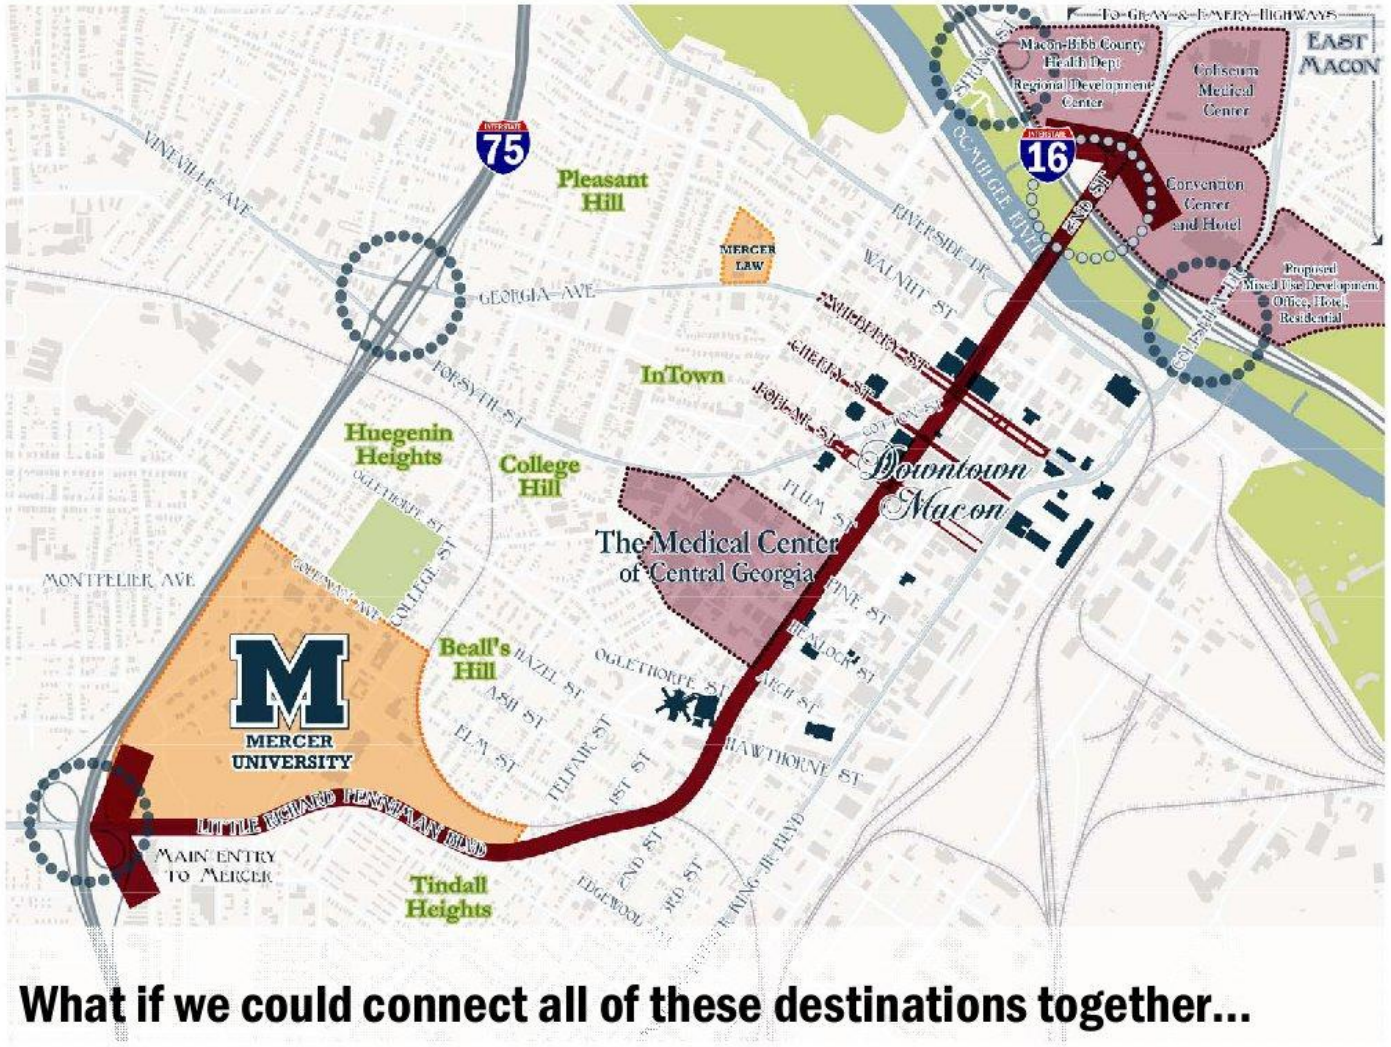
February 12, 2013

A Comprehensive Effort

- Publicly driven Second Street Corridor & transit plan
- Anchored by an economic development and funding strategy
- That will facilitate implementation

“MACON” THE CONNECTIONS

- Create a gateway and spine connecting institutions, businesses, neighborhoods, city center and east and west Macon
- Connect disparate development plans to leverage resources
- Connect Second Street and Richard Penniman Blvd.
- Connect people to and from work centers, meeting spaces and housing to services, shops and retail



building on a vision

Community Engagement & Charrette Recap

What We Heard ….

Different Perspectives … Common Vision!

- Connect Institutions, Downtown and East and West Neighborhoods,
- Greenspace and Trees
- Walkable and Bicycle Friendly , not Auto Centric
- Make the Streetcar Connection
- Penniman to Second – Fluid Connection
- If Kept, Hump Bridge as Bike/Ped
- Minimize Neighborhood Impacts
- Mixed Use: “Work, Live, Play
- Safe and Well Lit

BOULEVARD MASTER PLAN

Second Street Transformation Concept Master Plan Goals

- Connect the Major Activity Centers:
  - Neighborhoods–East & West; Mercer University; Medical Center; Downtown; CentrePlex & Coliseum Medical Center
- Create a Great Urban Street:
  - A Destination–Transit Oriented, walkable, bikeable, & green,
- Stimulate Investment:
  - Create mixed-use, live, work, play environments
  - Revitalize, renovate and redevelop along the corridor
  - Create jobs & grow the tax base
- Transform Macon:
  - Central Georgia's Economic & Cultural Center

Conceptual Master Plan Overview…

Conceptual Master Plan Design Considerations

- Embody Transformation Goals
- Incorporate Public Input
- Minimize Property Impacts Where Possible
- Complete Streets Approach: Accommodate for Walking, Biking, Transit and Vehicles
- Seamless Integration of Streetcars
- Balance with Railroad & Existing Topography
- Design to Attract Development
- Incorporate Sustainable Storm Water Management
