ADDENDUM # 1

To: ALL PROSPECTIVE FIRMS

Re: INVITATION FOR BIDS: **16-054-CW – LMIG Full Depth Reclamation and Deep Patch Overlay**

The Invitation for Bids, referenced above, is modified as follows:

1. Typical Sections for the pavements have not been given: All quantities have been provided in the bid schedule that was provided in the bid package. All roads that are to be patched are patched by milling out the area to be patched a depth of 5 inches and placing asphalt (12.5mm) in those areas before topping is placed. Milling is to occur to a depth of 1.25 inches on all roads that are to be patched and overlaid and also contain a curb and gutter system. Open ditch roadways will not be milled. Topping is to be installed to a depth of 1.25 inches (137.5 lb./yd²) on all of the roadways that are to be patched and overlaid. Full depth reclamation stabilized base is to be performed to an unfinished depth of 8" and a finished depth of 6"; Portland cement is to be installed at a rate of 42.3 lb./yd². A 2 inch overlay is to be applied to the properly cured (7 days or 300 psi break, whichever comes first) soil cement base.
2. Since the pay items are divided by "Former County" and "Former City" please define which roads are in the "Former County" and "Former City": The roadways and the appropriate application ("Deep patch and overlay"; "Full depth reclamation") are identified as Former City of Macon and Former Bibb County on the bid schedule provided in the bid package.
3. See attached updated Bid Schedule Document

Please incorporate this change into the Invitation for Bid and acknowledge receipt of this addendum on your bid form.

Sincerely,

Chauncey Wilmore
