Introduction

Background

In 2011 the City of Macon recognized that many areas within the city were suffering from disinvestment, crime, poverty, a decline in economic opportunity, and the deterioration of quality housing stock, and sought to remedy the problem. In response, the City of Macon adopted an Urban Redevelopment Plan to guide redevelopment efforts. Over the years, circumstances changed, goals were met, new strategies were developed and the plan subsequently became outdated. Additionally, in 2014 the City of Macon and Bibb County consolidated to form the Macon-Bibb County government. The 2011 plan was amended the same year to include areas within the county and to reflect the new government's name. However, elected officials and Macon-Bibb County government staff felt that creating a new plan which analyzed all parts of the county would greatly benefit the newly consolidated government.

This plan, developed as a successor to the 2011 City of Macon Urban Redevelopment Plan, is comprised of 13 sections, each analyzing the specific aspects of the existing conditions found throughout Macon-Bibb County. These sections include an analysis of data, a field inventory, and recommended strategies for redevelopment. Development of the Macon-Bibb County Urban Redevelopment Plan hinged on the engagement of elected officials, county staff, the public, the Macon-Bibb County Planning and Zoning Commission and data provided by various county departments.

About Macon-Bibb County

Macon-Bibb County is located in Middle Georgia, approximately 70 miles south of Atlanta and 150 miles northwest of Savannah. Mostly urban in nature, Macon-Bibb County encompasses 255 square miles and has a population of 155,524 making it the 13th largest county in the State.ⁱ

The county is home to nine institutions of higher education and three major hospitals that provide world-class care, including the area's only Level One trauma center. Macon-Bibb County is also the cultural center for the Middle Georgia region with the Museum of Arts and Sciences, Tubman African American Museum, Macon Symphony Orchestra, and Georgia Sports Hall of Fame. In addition, Macon-Bibb County has a strong presence of historic resources, such as the Ocmulgee National Monument, Fort Hawkins, the Ocmulgee River, 10 historic districts and numerous structures listed on the National Register of Historic Places. The county is also home to six annual festivals and a multitude of events, including the Macon Cherry Blossom Festival, Ocmulgee Indian Festival, Tubman Pan African Festival, Mid-Summer Macon, Arrowhead Indian Festival, and many others.

The city and county once relied on the textile industry for its economic foundation. These industries have not only left the area, but for the most part have left the country. This shift resulted in the county scrambling to replace lost jobs, maintain current jobs, and create new opportunities for residents. Because of these economic hardships, the county now has a lower income level and higher crime rates than both the State of Georgia and national averages. In 2013, the per capita income for the county was \$20,982, roughly 18% less than Georgia's per capita income of \$25,182 and 29 % less than the U.S.'s per capita income of \$28,155. As Georgia has a poverty rate of 18.2%, Macon-Bibb County's greatly exceeds the state's, with a poverty rate of 24.9%. Like many urban centers, the area is plagued with depressed incomes and high poverty rates, thus unemployment, crime, and most of all, blight, continues to expand.

Purpose of the Plan

The 2016 Macon-Bibb County Urban Redevelopment Plan strives to develop strategies which will reduce the amount of blight within the county and subsequently increase the quality of life for residents. This plan examines existing conditions and potential strategies to combat the problem of blight. It also identifies gaps in the county's current policies and seeks to prioritize these into actionable projects with goals that can be measured. During the planning process, crime, poverty, code enforcement, and development data were analyzed and a field inventory was conducted. Following these activities, strategies were developed to address the findings.

Legal Authority

The Urban Redevelopment Act (O.C.G.A §36-61-1) was adopted by the Georgia State Legislature in 1955 and has since been amended several times, most recently in 2015. The Act enables local governments to utilize broad powers to redevelop blighted or threatened areas of the community. To access the redevelopment powers allowable under the Act, a local government must undergo the following process:

- Define boundaries of an Urban Redevelopment Area.
- Develop a draft Urban Redevelopment Plan.
- Hold a public Hearing.
- Adopt a "Finding of Necessity", declaring that there exist pockets of blight which constitute a serious and growing menace, injurious to the public health, safety, morals, and welfare of the residents of this state. This resolution declares that certain pockets of blight or portions thereof may require acquisition, clearance, and disposition subject to use restrictions. Additionally, this resolution declares that public money may be expended and the power of eminent domain may be exercised for the purposes of removing blight.
- Adopt the Urban Redevelopment Plan and designate an Urban Redevelopment Agency responsible for implementation.

Comprehensive Plan Consistency

The Urban Redevelopment Plan is consistent with Macon-Bibb County's 2030 Comprehensive Plan. Components of the Community Agenda, specifically the Community Vision Statement, Future Development Strategies, and Implementation Goals, were used to guide the development of this plan. The Macon-Bibb County Comprehensive Plan 2030 lays out the following vision:

In the year 2030 Macon and Bibb County, Georgia will be a dynamic community encouraging balanced growth with sensitivity to quality of design while ensuring environmental safeguards. We will embrace our diverse population, providing a full range of employment, cultural and economic choices. Our neighborhoods, commerce and mobility will reflect an interconnection that promotes continuity and wise transitions. The foundation and spirit of our public involvement activities will draw strength from unity and a civic-minded approach which inspires, instills and sustains a true stewardship of community.

Strategies contained within the Urban Redevelopment Plan complement the development strategies found within The Macon-Bibb County Comprehensive Plan 2030.

The Planning Process

Macon-Bibb County utilized the Middle Georgia Regional Commission to assist in the preparation of the county's Urban Redevelopment Plan, while the nine members of the Macon-Bibb County Board of Commissioners served as the steering committee for the development of the plan. The Macon-Bibb Planning and Zoning Commission provided all mapping and GIS services for the plan. Many meetings took place during the planning process, most of which occurred during regularly scheduled work sessions of the Macon-Bibb County Commissioners. The process began by using data models to identify areas of the county that suffered from pockets of blight. These data models consisted of the following data: Crime, code violations, existing and future land use, and poverty. After narrowing down a proposed urban redevelopment area, a field inventory was conducted. The Macon-Bibb Commissioners whose districts are located within the URA were given the opportunity to tour their districts with MGRC staff. These tours showed the complexities of blight within the area, and the Commissioners offered constructive comments and ideas which were incorporated into the plan. Findings from the field inventory were presented to the elected officials and staff of Macon-Bibb County gathered input on strategies to address the negative conditions. A draft of the plan was completed in (Month, Year) and the Macon-Bibb County Board of Commissioners adopted a "Finding of Necessity" declaring that conditions of blight exist within the Urban Redevelopment Area. The draft was presented to the Board of Commissioners in (Month, Year). After gathering feedback from elected officials, a public hearing was held on (Month, Year) to present the plan to the public and gather input.

The draft Urban Redevelopment Plan was presented to the Macon-Bibb Board of Commissioners in (Month) for approval.

Other Redevelopment Efforts

Developing a new unified Urban Redevelopment Plan is just one part of a larger, ongoing process to eliminate blight. Other the past several years Macon-Bibb County has undertaken several redevelopment projects; an abridged list with descriptions can be seen below. In addition to these large scale projects, each year Macon-Bibb County, and its predecessor, City of Macon have utilized CDBG funds for demolition of abandoned, blighted structures.

- ❖ The Second Street Corridor project is a downtown redevelopment effort intended to bring together the area that stretches from East Macon through downtown, connecting to Little Richard Penniman and Mercer University Boulevards, and creates gateways into Macon-Bibb County at both ends. This \$8M Special Purpose Local Option Sales Tax (SPLOST) funded project consists of adding sidewalks, bicycle lanes, lighting, landscaping, and upgrading stormwater systems. Several of the projects are complete or underway.
 - Vision Block The block of Second Street between Cherry and Poplar Streets that features bike lanes, reverse angle parking, landscaping, shade trees, benches, improved sidewalks, an irrigation system, and more will be replicated all along the Corridor.
 - Connector A vehicular, bicycle and pedestrian bridge connecting Little Richard Penniman Boulevard with Second Street. The first phase has been completed, creating a more pedestrian friendly street with an expanded park and realigned intersection.
 - MidCity Square A new park located at the intersection of Second and Pine Streets. Several of the properties have been purchased and the buildings have been torn down to make way for new greenspace.
 - Pinnacle Park Located on the site of the former Boys and Girls Club, this will be a passive park with trails, benches, landscaping, and a great view of downtown.
 Work on this new green space in the Tindall Heights neighborhood is ongoing.
- Mercer University Drive Pedestrian Bridge Using Tax Allocation District bond funding, Macon-Bibb County will be building a signature pedestrian bridge over Mercer University Drive connecting Mercer Landing with the Mercer University Campus. This bridge will serve as a gateway into the city. Its construction helped bring almost \$50M in investment in Tindall Heights that will result in a high density obsolete public housing neighborhood turning into a low density mixed-income neighborhood.

Brownfields Revitalization Project - Macon-Bibb County has been awarded a \$400,000 grant from the Environmental Protection Agency (EPA) to begin the revitalization of the Downtown Industrial District (DID). The grant will allow Macon-Bibb County to establish a contamination assessment and redevelopment feasibility pilot as an example for ongoing revitalization of Brownfield Sites in the DID.

Distress Indicators

Data from a variety of sources was analyzed to determine trends within Macon-Bibb County. The data indicates areas of the county that have a prevalence of poverty, criminal activity, code enforcement violations, and vacant and underutilized lots. Education, labor force, demographic, and tax digest data were also examined.

Distress Indicator 1: Poverty

Poverty data was obtained from the 2009–2013 5-year American Community Survey (ACS) estimates report B17021. As seen in Figure 1, the greatest concentrations of poverty are within the middle and eastern portions of the county. The western side of Macon-Bibb County has significantly less poverty with three block groups having between 0-5% poverty. In Macon-Bibb County, 82 of the 126 block groups have individuals whose income in the past 12 months was below the poverty level.

Figure 1: County Poverty Rates by Census Block Groups

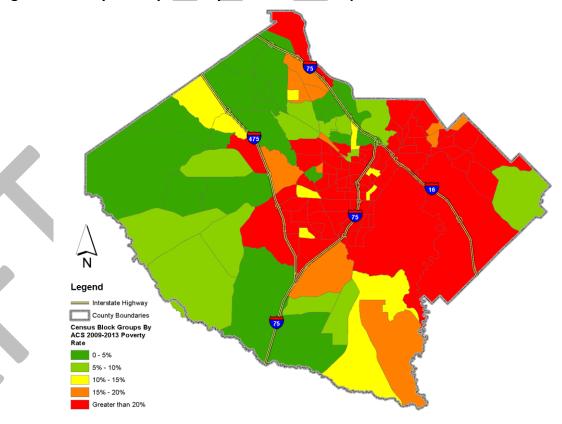

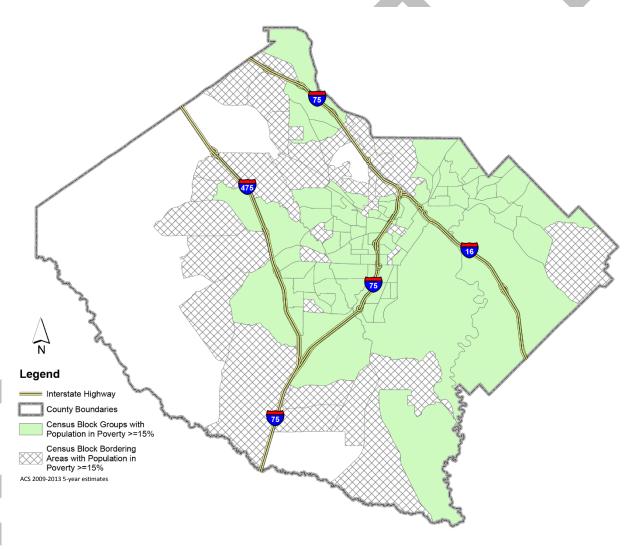

Figure 2 shows the Census Block Groups in Macon-Bibb County which have greater than 15% of the population in poverty. As seen below, the census block groups with poverty rates 15% or higher are heavily concentrated within the downtown core and to the east, extending along Interstate 75. The areas on the western end of the county and a small area in the southern portion of the county are the only areas that neither have greater than 15% poverty nor border a census block group with those conditions. Census block groups with, or adjacent to those with, greater than 15% poverty have increased potential to suffer from the conditions occurring in the high-poverty block groups.

Figure 2: Census Block Groups with Greater Than 15% Poverty

According to 2009-2013 5-Year ACS estimates, out of the 148,772 persons for whom poverty status is determined within Macon-Bibb County, 37,039 are estimated to be below the poverty level. Of those 37,039 persons, 2% have a Bachelor's degree, 12% have some college or associate's degree, 18% are high school graduates, and 18% do not have a High School Diploma or equivalent. Table 3, below, shows the population for whom poverty status is determined by age. For persons under 18 years of age, 37% live below the poverty level. For persons aged 18-64 years, 22% live below the poverty level. For persons 65 years and over, 13% live below the poverty level. Such a predominance of poverty within the county is conducive to the presence of blighted conditions. This level of poverty is one of the causes of disinvestment in the area as it prevents businesses and neighborhoods from thriving. As seen in Figure 1 and 2 and Tables 1-3, it is clear that portions of the county suffer from pervasive poverty.

Table 1			
Educational Attainment Ages 25-64	Below Poverty Level	Total	
Less than a high school graduate	6,578	16,267	
High school graduate (or equivalent)	6,601	31,369	
Some college or associate's degree	4,381	26,665	
Bachelor's degree or higher	1,008	22,285	

Table 2		
Work Status	Below Poverty Level	Total
Worked full-time, year-round in the past 12 months	440	10,429
Worked less than full-time, year-round in the past 12 months	2,799	5,692
Did not work	5,951	11,518

Table 3		
Age	Below Poverty Level	Total
Under 18 years	14,361	39,064
18 to 64 years	20,200	90,280
65 years and over	2,478	19,428

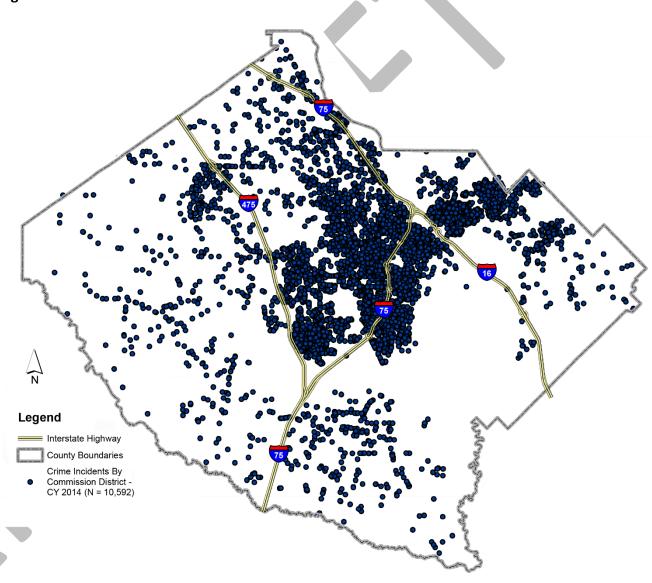

Distress Indicator 2: Criminal Activity

Another indicator of distress is the prevalence of crime. According to the Bibb County Sheriff's Office, in 2014 there were 10,279 incidents of crime county-wide. As seen in Figure 3 below, there are concentrations of crime within the urban core and the immediate surrounding areas. Also, concentrations occur around major transportation thoroughfares such as Zebulon Road, Riverside Drive, Lamar Road, Vineville Avenue, and Shurling Drive.

Areas where blight exists can be conducive to criminal activity. For example, abandoned structures that are not secured are open for criminal activity. The presence of crime is having a detrimental and transformative effect on the character and nature of the community.

Figure 3: 2014 Crime Incidents

The figures below illustrate the number of property crimes that were committed throughout the county in 2014. These crimes include: arson, burglary, motor vehicle theft, and larceny. These statistics were also included in Figure 3 on the previous page. As seen in the maps, the highest concentrations of property crimes occurred in the middle of the county. These figures show that the crimes are occurring in the core and to the east, areas which are more densely populated.

Figure 4: Crime: Larceny

Legend
Larceny

Figure 5: Burglary

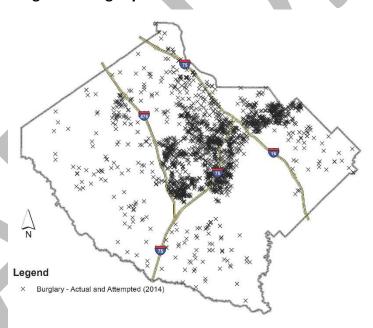

Figure 6: Crime: Arson

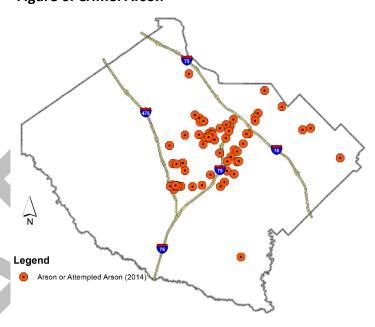

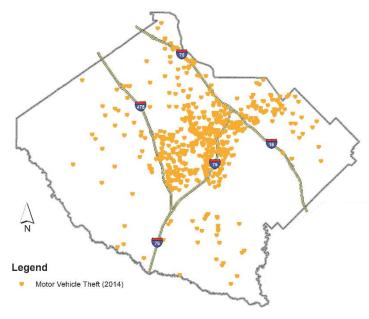

Figure 7: Crime: Motor Vehicle Theft

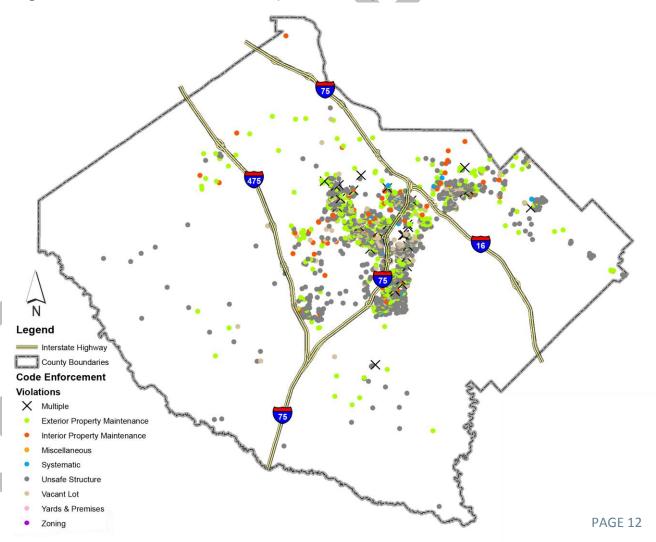

Distress Indicator 3: Unsafe Conditions and Code Violations

Code enforcement violations are another indicator of distress. Data obtained from Macon-Bibb County Code Enforcement show clusters of violations. As with the previously discussed indicators, it is evident that most of the clusters are within the downtown core and to the east. These violations include: exterior property maintenance, interior property maintenance, miscellaneous, systematic, unsafe structure, vacant lot, yards and premises, zoning, and multiple violations.

Inspectors with the Macon-Bibb County Code Enforcement Department are assigned to districts where they assess the condition of properties and respond to code enforcement-related complaints. These inspectors assess the conditions of properties within certain areas, but a comprehensive survey of properties has not been conducted. The data shown below in Figure 8 represents open violations through April 11, 2016. Each code enforcement violation results in a fine of \$100 to the resident.

Figure 8: Code Enforcement Violations (As of 4/11/16)

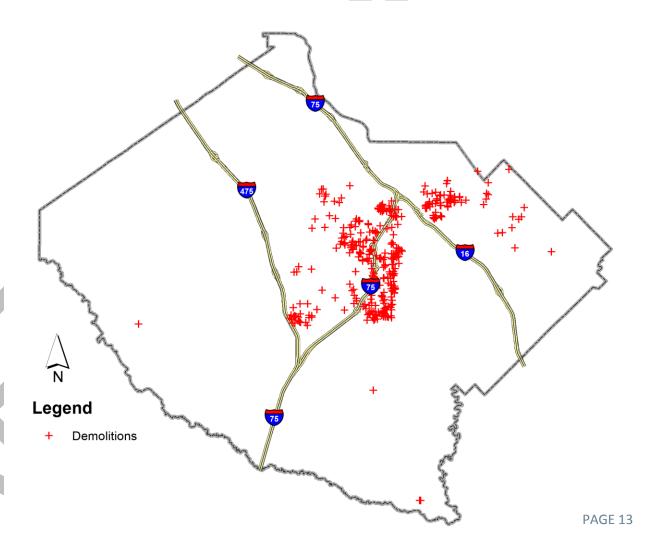

Unsafe structures, as mapped in Figure 8 above can lead to far worse conditions. Unsafe structures are those where any of the following conditions exist: vacant, open, abandoned, deteriorating roof, visible structural damage, windows broken/missing, or doors broken/missing. If the structure is open, Macon-Bibb County will secure the structure and place a lien on the property in order to recover the associated costs.

Often times structures initally enter the system as unsafe, but as the structure becomes unfit for human inhabitation or are unsalvagable they are processed for demolition through the Macon-Bibb County Municipal Court. Figure 9 below shows the distribution of the properties on the court ordered demolition list, as of April 7, 2016. There are a total of 401 structures listed for demolition.

As seen in other figures, there are large clusters of structures tagged for demolition located within the Downtown Core and the areas within the immediate periphery.

Figure 9: Distribution of Parcels with Unsafe Housing (As of 4/7/16)

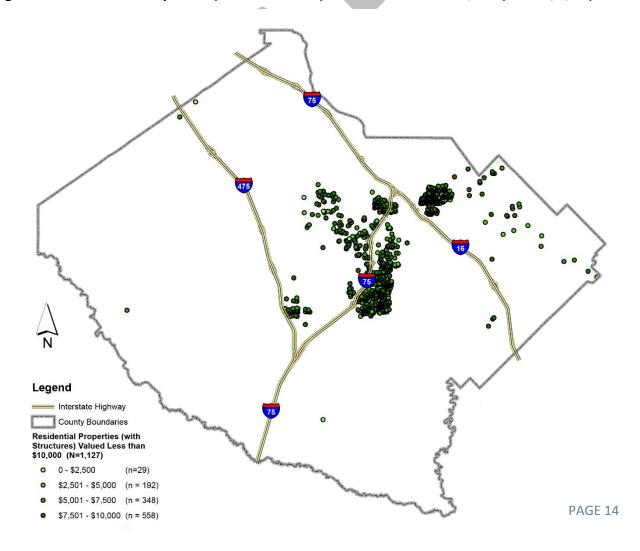

Another indicator of unsafe conditions is the presence of structures valued at less than \$10,000. A structure valued at less than \$10,000 can be assumed to suffer from blight. These properties are likely vacant or abandoned. Table 4 below summarizes the number and value classification of structures less than \$10,000. Using data obtained from the Macon-Bibb County Tax Assessor's Office, Figure 10 below shows the distribution of these structures as of August 7, 2015. The data was obtained prior to the August 25, 2015 Macon-Bibb County Work Session in order to illustrate the visible clusters of structures valued less than \$10,000. This supplemental data was useful to the committee as they determined the boundaries of the Urban Redevelopment Area.

Table 4		
Value	Number of Structures	
0 - \$2,500	29	
\$2,501 - \$5,000	192	
\$5,001 - \$7,500	348	
\$7,501 - \$10,000	558	

Figure 10: Residential Properties (with Structures) Valued Less than \$10,000 (As of 8/7/15)

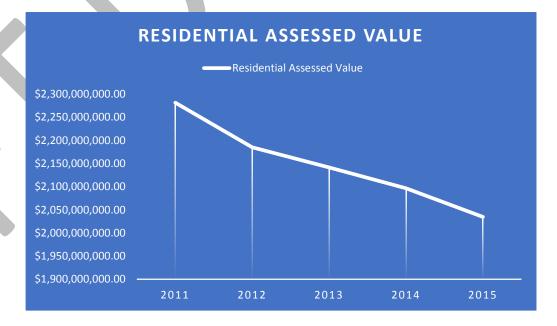

Distress Indicator 4: Depreciating Assessed Property Values

These figures were completed by obtaining the assessed value of residential properties within Macon-Bibb County from 2011-2015. As seen below in Figure 11, the residential asssessed value and fair market value for properties within the county has declined over the past five years. The total fair market value of all properties in 2011 was \$5,703,391,045 and declined to \$5,086,943,973. The total residential assessed value, or 40% of the fair market value, in 2011 was \$2,281,356,418 and declined to \$2,034,777,589. The Tax Digest Consolidated Summary for years 2011-2015 can be found in Appendix D.

Figure 11: Fair Market Value 2011-2015

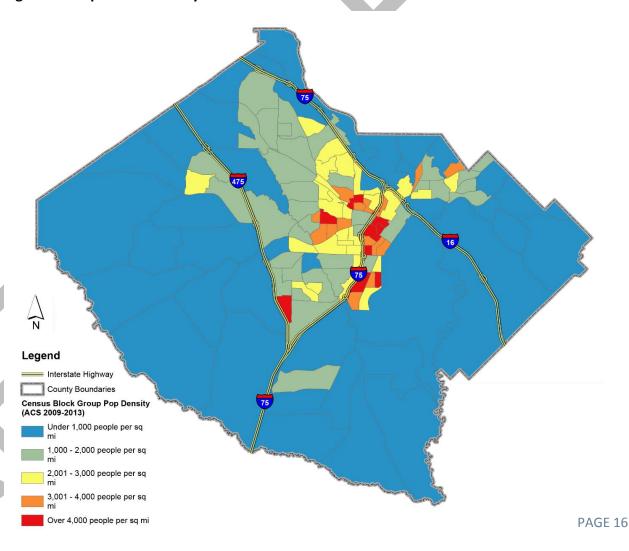

Urban Redevelopment Area

All of the previously discussed distress indicators and data were taken into consideration when determining the area in which redevelopment efforts would be undertaken in order to improve the conditions. The area is known as the Macon-Bibb County Urban Redevelopment Area (URA). Data and analysis, along with field observation was used in order to make a determination that pockets of blight exist within the area.

In addition to the distress indicators, the county's population density was also examined. Population density is defined as the number of residential units permitted per acre. Density is determined by dividing the total number of units by the total site area less right-of-way.

Figure 13 shows that the most densely populated areas of Macon-Bibb County are the city core and its immediate periphery. Additionally, the incidents of crime previously displayed in Figures 4-7 occur in the same densely populated areas of Macon-Bibb County.

Figure 13: Population Density

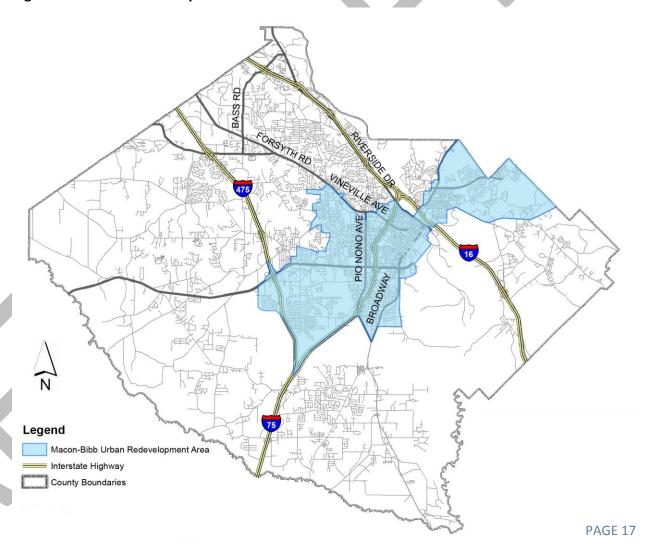

Boundaries of Urban Redevelopment Area

At a regularly scheduled work session on August 25, 2015, the Macon-Bibb County Commissioners outlined the boundaries for the Urban Redevelopment Area. These boundaries were chosen to be consistent with the definition of an "urban redevelopment area" in Georgia's Urban Redevelopment Law (O.C.G.A § 36-61).

The Urban Redevelopment Area boundary runs along the junction of I-75 and I-475, just north of Hartley Bridge Road, west to I-475 and Highway 80, east to the Macon-Bibb and Jones County border along GA-57, and north to the Macon-Bibb and Jones County border along US-129. This area, consisting of approximately 22,369 acres with 30,331 parcels, as seen below, and was identified as being economically, environmentally, and aesthetically distressed. Much of the area consists of vacant, dilapidated, and under-utilized properties. The URA comprises 13.73% of the total county acreage.

Figure 14: Urban Redevelopment Area

Conditions Within Urban Redevelopment Area

In the previous section, poverty, crime, and code enforcement violations were analyzed at the county-wide level. This information was instrumental in the selection of an Urban Redevelopment Area. Below, poverty, crime, and code enforcement data are analyzed within the Urban Redevelopment Area.

Poverty

The Urban Redevelopment Area is home to households with higher concentrations of poverty. As seen in Figure 15, majority of the Census Block Groups within the Urban Redevelopment Area have a poverty rate greater than 20%. Four of the Census Block Groups located within the URA have poverty rates between 15-20%, likewise, four have poverty rates between 10-15%. The highest rate of poverty within the URA is Block Group 1, Census Tract 127, located in the center of the city, where 78.53% of households live at or below the poverty rate.

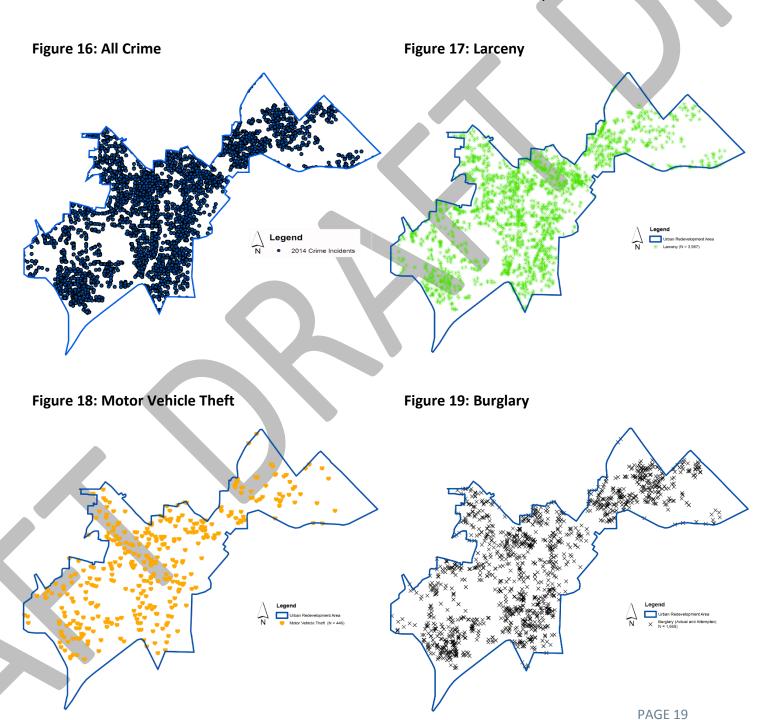

Legend Census Block Groups By ACS 2009-2013 Poverty Rate PctPov0913 0 - 5% 5% - 10% 10% - 15% 15% - 20% Greater than 20%

Figure 15: Poverty by Census Block Group within URA

Crime

Criminal activity is often an indication of distress and lack of economic opportunities within a community. Within the Urban Redevelopment Area, there were 6,674 incidents of crime in 2014. Of these, there were 3,987 incidents of larceny, 446 incidents of motor vehicle theft, and 1,669 incidents of burglary. The number of crimes committed within the Urban Redevelopment Area account for 63% of the total crimes committed within Macon-Bibb County in 2014.

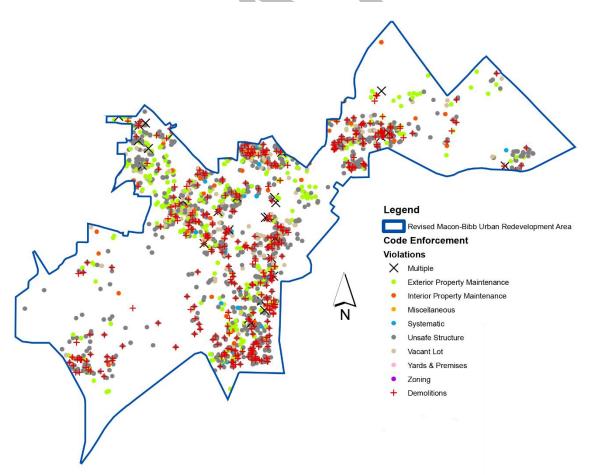

Code Enforcement Violations

As of April 11, 2016, 2,245 code enforcement violations occurred within the Urban Redevelopment Area. These include: exterior property maintenance, interior property maintenance, miscellaneous, systematic, unsafe structures, vacant lots, and yards and premises. As seen below, similar clusters appear with code enforcement violations as with the crime maps on the previous page. The violations mapped below are considered "active", meaning the occupant has not resolved the violation, and many residences have received multiple code enforcement violation citations. As shown below, 84% of all active code violations are located within the Urban Redevelopment Area. Of the properties on the court ordered demolition list, 95.4% are within the URA.

Additionally, vacant lots are identified and mapped along with these violations. In the Urban Redevelopment Area alone there are 222 lots identified as vacant. Out of the 238 vacant lots identified in the county, 93% are within the URA. While these vacant lots are often overgrown and filled with debris, they offer an opportunity for new developments that could improve the area and lead to additional investment.

Figure 20: Code Enforcement Violations and Court Ordered Demolition

Delinquent Commercial Taxes

Figure 21 indicates commercial properties that have been delinquent on property taxes for the past three years. This level of delinquency indicates the commercial properties that potentially are economically distressed or abandoned. Figure 21 below highlights the areas where redevelopment tools may be necessary.

Clusters of property tax delinquency are visible along major corridors such as: Pio Nono Avenue, Columbus Road, Houston Avenue, Broadway, Riverside Drive and Napier Avenue. Additionally, these clusters mirror those seen with crime and code enforcement data.

There are 144 properties with delinquent property taxes for years 2013, 2014, and 2015 within the county and 121, or 84%, within the Urban Redevelopment Area.

Jones County

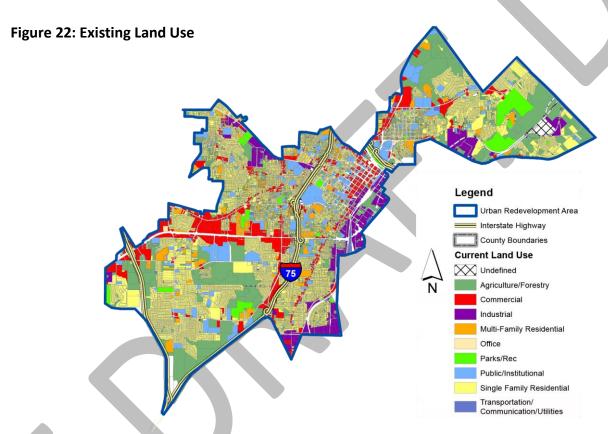

BigNinowea Privir Signinowea Privir Signir Signinowea Privir Signinowea Privir Signinowea Privir Signinowe

Figure 21: Commercial Properties with Delinquent Property Taxes for Three Years

Existing Land Use

The existing land use for the Urban Redevelopment Area can be seen on Figure 22 below. Existing land use is an important factor to consider when developing strategies for dealing with the existing blight and preventing future blight due to the varying nature of the problem within different settings. The Urban Redevelopment Area includes all types of land use, but the predominant land uses are residential, commercial, industrial, public/institutional and agricultural.

Classification	Parcel Count
Single Family Residential	23,053
Agriculture/Forestry	3,484
Commercial	1,920
<u>Industrial</u>	567
Public/Institutional	543
Multi-Family Residential	420
Office	150
Parks/Recreation/Conservation	70
Transportation/Commercial/Utilities	33
Undefined	44
Missing	62

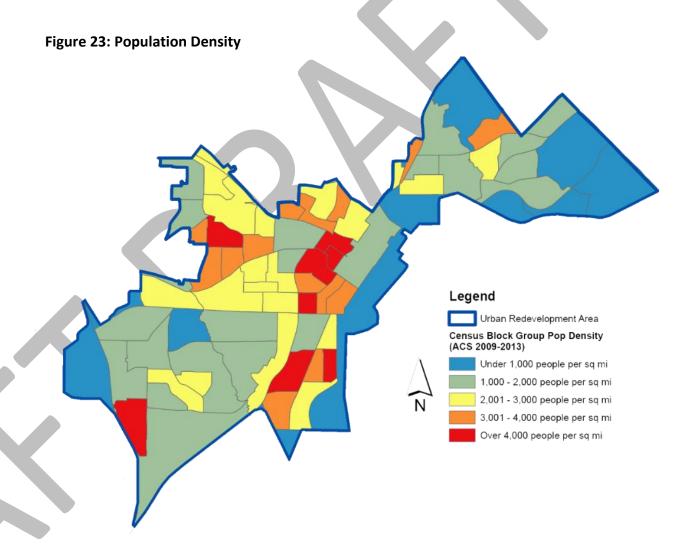

Population Density

Population density is an important factor in understanding the previous topics, such as code enforcement violations, crime, and existing land use. Figure 23 below shows the most densly populated portions of the Urban Redevelopment Area.

This information provides context to the crime data illustrated in Figures 16-19. When comparing these figures to the population density map in Figure 23 (below), it is clear that a large number of crimes are taking place in the most densely populated neighborhoods within the URA. Likewise, clusters of the code enforcement cases occur within the most densly populated areas within the URA.

Also, as compared to Figure 21 on the previous page, some of the least dense block groups, or those with less than 1,000 people per square mile, are located within areas identified for agricultural uses.

Field Inventory

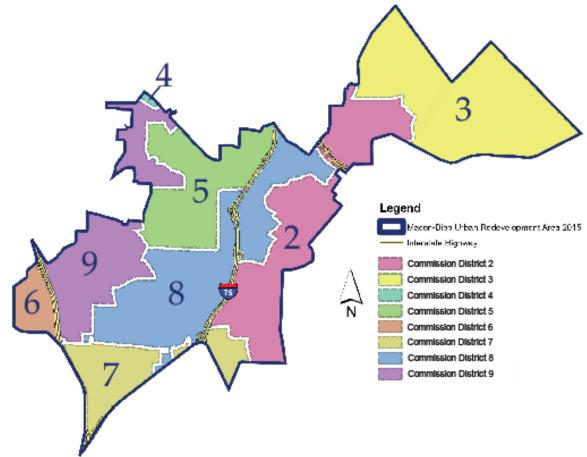

To better understand the conditions of the Urban Redevelopment Area, MGRC staff conducted a field inventory. The process began with the identification and evaluation of conditions with each elected official whose district lies within the Urban Redevelopment Area. These trips with the Commissioners were essential as they have vast working knowledge of the various conditions within the districts.

Also, a windshield survey was conducted in order to gain representative samples of structures located within the area. Photographs were taken of representative structures within the Urban Redevelopment Area. These photographs, along with maps and findings from the field inventory, can be seen on the following pages.

The following Commission Districts are located within the URA: 2, 3, 5, 6, 7, 8, and 9.

Strategies

The trends of increased blight and disinvestment in the Urban Redevelopment Area can be expected to continue if action is not taken. While enormous strides have been made in reducing the blight, a strategic and targeted approach must be taken. There are two goals these strategies must address: remedy the blight that exists, and prevent the spread of pockets of blight into areas of the county that are today free from blight.

It is important to note, the pockets of blight the county is experiencing did not occur overnightit will take time and a concerted effort to remedy the problem. After adopting a Finding of Necessity Resolution, Macon-Bibb County can implement any of the following strategies and powers under the Urban Redevelopment Law to encourage needed urban rehabilitation.

Strategy 1 - Create, Implement, and Market Incentives for redevelopment within URA using the following tools:

- Opportunity Zones (OZs)
 - OZs are designated zones that are within or near 15 % or greater poverty and where an Enterprise Zone or Urban Redevelopment Plan exists. The Opportunity Zone program provides some of the strongest incentive programs available to existing and new businesses. The job tax credit program, or \$3,500 per job created, is available for new or existing businesses that create two or more jobs. This incentive can be taken against the business's Georgia income tax liability and payroll withholding tax and can be claimed up to five years as long as the jobs are maintained. There is no adverse fiscal impact on Macon-Bibb County. Investments in the URA will support and encourage the county's growth and transformation. This tool may be layered with BIDs, CIDs, TADs, or Enterprise Zones. Macon-Bibb County currently has several approved Opportunity Zones. These zones, created in 2011 and 2012, will expire in 2021 and 2022. These zones are all located within the former City of Macon boundaries.
- Business Improvement Districts (BIDs)
 BIDs are special districts in which property owners agree to be taxed at a higher rate than the rest of the community in order to pay for expanded services that are not already being provided to the city as a whole. BID funds must be used for: advertising, promotion, sanitation, security, or business recruitment and retention. This tool may be layered with OZs. Macon-Bibb County currently has one Business Improvement District located along Eisenhower Parkway.

Community Improvement Districts (CIDs)

CIDs are special districts where property owners agree to a self-imposed tax to be used for improving the district. CIDs are a good way to leverage state and federal tax dollars for roads and other major infrastructure. Through a CID, a special taxing district is created to pay for exceptional infrastructure needs such as: street/road construction and maintenance, parks and recreation facilities, storm water and sewage collection and disposal systems, water development, storage, treatment, purification and distribution facilities, public transportation, terminal and dock facilities, and parking facilities. This tool may be layered with OZs.

Enterprise Zones

Enterprise Zones are intended to improve geographic areas within cities and counties suffering from disinvestment, underdevelopment, and economic decline, by encouraging private businesses to reinvest and rehabilitate such areas. These are locally managed and designated districts where property taxes are abated for a period of five years then are gradually increased over the subsequent five years. They must meet at least three of the five following criteria: pervasive poverty; unemployment rate at least 10% higher than state or significant job dislocation; underdevelopment; general distress; and adverse conditions; and general blight. This tool may also provide a property reduction in occupation taxes, regulatory fees, building inspection fees, and other fees. This tool may be layered with OZs.

Tax Allocation Districts (TADs)

TADs are geographically defined areas that use public dollars to fund large scale often cost prohibitive developments. The redevelopment activities are financed with public dollars through the pledge of future increased property taxes. As the property attracts investment the property taxes will rise. TADs are a popular mechanism for revitalizing blighted or underutilized areas. The process involves designating a Tax Allocation District, establishing its current tax base floor and then dedicating future taxes over and above that floor for a given period of time to pay the costs improvements needed to spur new, higher density development. TADs are intended to be used in urbanized or developed areas exhibiting "blight", to promote redevelopment or preservation of historic or natural assets. Uses include: renovation, construction, preservation, restoration, expansion, or demolition of buildings or properties for business, commercial, industrial, government, education, public or private housing, social activity, governmental services, historic properties, greenspaces, mass transit and pedestrian facilities, telecommunications infrastructure, water and sewer lines, streets, sidewalks, parking facilities, and public parks. This tool may be layered with OZs.

Macon-Bibb County currently has several Tax Allocation Districts. The following were established in 2010: Renaissance on the River TAD, Bibb Mill Center TAD, and Second Street TAD. The Second Street TAD was expanded in 2012.

Strategy 2 – Utilize the Land Bank Authority as a strategic tool to support growth and investment in neighborhoods throughout the county and to ensure that blighted properties are identified, acquired, and remediated. The Macon-Bibb County Land Bank Authority is a non-profit corporation organized under the laws of the State of Georgia for the public purpose of returning non-tax generating properties to a productive use. The Land Bank Authority works in a collaborative effort to provide land to be used in the production of housing and creation of jobs for low-to-moderate-income citizens through residential, commercial and industrial development.

The Land Bank Authority is able to:

- Acquire underutilized parcels, either by In Rem foreclosure or standard delinquent tax auction, and return them to a productive use to generate tax revenue
- Assist the Economic and Community Development Department in the strategic acquisition of properties in targeted areas and neighborhoods
- Facilitate the acquisition and transfer of properties for use in the development of affordable housing by non-profit and private developers
- Forgive delinquent property taxes as an incentive for redevelopment

STRATEGY 3 - Utilize a Blight Consultant to oversee the usage of funds aimed at fighting blight. The blight consultant will:

- Perform project evaluation to determine if project meets qualifications
- Define project scope and estimated cost
- Request the Land Bank Authority's assistance with acquisition
- Perform environmental testing
- Oversee abatement, demolition, and rehabilitation

STRATEGY 4 - Conduct a 100% Survey of All Parcels within URA

Contract with consultant to map and profile each parcel within the URA utilizing the Blexting application that Macon-Bibb County purchased in 2015. Below are questions the survey should answer:

- Is the structure occupied?
- What is the condition of the structure?
- Is the structure fire damaged?
- Are stray animals present?
- Is there is dumping on the site?

The end result would be a map that showed the areas of Macon-Bibb County that are in most need of attention and the areas that may not need attention at the moment, but may in the future. This data would enable departments and authorities like the Land Bank Authority, Code Enforcement, and Public Works to use funds strategically in order to build momentum.

STRATEGY 5 - Institute policies to survey, on a quarterly basis, areas of the county where redevelopment efforts have occurred or areas that are on the cusp of becoming blighted. This will ensure the data does not become outdated. This systematic approach is instrumental in the fight against the spread of blight.

STRATEGY 6 - Issue bonds or tax exemptions for redevelopment purposes within the URA. Bonds created under O.C.G.A. 36-61-12 need not be secured, like general obligation bonds, by the full faith and credit of the local government. Instead, they may be retired by long-term leases on public facilities and a wide variety of revenue streams deriving from projects within the redevelopment area.

STRATEGY 7 - Partner with civic groups, non-profits, religious organizations, student organizations, and neighborhood groups to work together to combat blight. Examples of these groups are: Habitat for Humanity, Rebuilding Together, South Macon Arts Revitalization and Technology (SMART), Shalom Zones, and the Ingleside Neighborhood Group.

STRATEGY 8 - Continue diligent enforcement of housing, zoning, and occupancy controls and standards within the Urban Redevelopment Area.

STRATEGY 9 - Encourage voluntary rehabilitation of blighted structures. This can be accomplished through engaging the public at workshops, forums, and neighborhood meetings.

STRATEGY 10 - Partner with the Macon-Bibb County Urban Development Authority to combat commercial blight existing with the URA.

STRATEGY 11 - Encourage public-private partnerships that will facilitate the redevelopment of the Macon-Bibb County Urban Redevelopment area.

	Projects Anticipated to b	e Undertaken	2016-2017

Redevelopment Authority Agency

Macon-Bibb County has elected to exercise its Urban Redevelopment Powers through the Mayor and Commissioners, pursuant to O.C.G.A. 36-61-17 of the Urban Redevelopment Act. The Mayor and Commissioners will serve as the Redevelopment Authority Agency charged with implementing the plan. The defined redevelopment area was adopted by the Macon-Bibb County Commission on (Month, Year) by a ------- vote.

Plan to Leverage Private Investment

Macon-Bibb County plans to engage a variety of private resources to implement this plan. This includes local developers along with community and nonprofit organizations. The county also plans to utilize the Macon-Bibb County Land Bank Authority in order to gain private investment and redevelop properties.

Covenants and Restrictions

Covenants and restrictions to be placed on the properties may include, but are not limited to minimum landscaping requirements, restrictions of use (residential, commercial, etc.) and compliance with specific development standards. Such restrictions will be minimum, but will maintain the aesthetic quality and value of the areas located in the Urban Redevelopment Area. No changes are proposed as part of this plan.

Parcels to Be Acquired

A list of parcels to be acquired is not available at this time. As implementation of the strategies in this plan occurs, Macon-Bibb County reserves the right to acquire properties through eminent domain if necessary.

Structures to be Demolished or Rehabilitated

Macon-Bibb County Code Enforcement has the power to determine whether a property is unfit for human habitation, not in compliance with applicable codes; is vacant and being used in connection with the commission of drug or other crimes; or constitutes an endangerment to the public health or safety as a result of unsanitary or unsafe conditions. Macon-Bibb County has the power to file a complaint in court against the property. Using the legal process, the county shall be able to determine whether the nuisance properties should be abated. As part of this plan, those properties in Figure 9 shall receive priority in this process.

Relocation of Residents of Demolished Properties

At this time, Macon-Bibb County does not anticipate displacing any residents from their home as the purpose of this plan is to remove or rehabilitate vacant, blighted buildings within the Urban Redevelopment Area. In the event that the plan is amended to include the displacement of residents a plan for relocation shall be provided.

Conclusion

The data and analysis presented in this plan provides a factual basis for the Macon-Bibb County Board of Commissioners to make a finding that the Urban Redevelopment Area constitutes as a blighted area. This plan documents required blight factors as outlined in The Urban Redevelopment Act (O.C.G.A §36-61-1). This report provides a Finding of Necessity that identifies one or more blighted areas exist within the defined area and that the rehabilitation, conservation, or redevelopment of the study area is necessary in the interest of the public health, safety, morals, or welfare of the residents in the area.

²⁰⁰⁹⁻²⁰¹³ American Community Survey 5-year population estimates

Appendix A: Definitions

'Agency' or 'urban redevelopment agency' means a public agency created by Code 12 Section 36-61-18.

'Area of operation' means the area within the corporate limits of the municipality or county and the area within five miles of such limits, except that it shall not include any area which lies within the territorial boundaries of another incorporated municipality or another county unless a resolution is adopted by the governing body of such other municipality or county declaring a need therefor.

'Board' or 'commission' means a board, commission, department, division, office, body, or other unit of the municipality or county.

'Bonds' means any bonds (including refunding bonds), notes, interim certificates, and certificates of indebtedness, debentures, or other obligations.

'Clerk' means the clerk or other official of the municipality or county who is the custodian of the official records of such municipality or county.

'County' means any county in this state.

'Downtown development authority' means an authority created pursuant to Chapter 42 of this title.

'Federal government' means the United States of America or any agency or instrumentality, corporate or otherwise, of the United States of America.

'Housing authority' means a housing authority created by and established pursuant to Article 1 of Chapter 3 of Title 8, the 'Housing Authorities Law.'

'Local governing body' means the council or other legislative body charged with governing the municipality and the board of commissioners or governing authority of the county.

'Mayor' means the mayor of a municipality or other officer or body having the duties customarily imposed upon the executive head of a municipality.

'Municipality' means any incorporated city or town in this state.

'Obligee' includes any bondholder, agents, or trustees for any bondholders, or any lessor demising to the municipality or county property used in connection with an urban redevelopment project, or any assignee or assignees of such lessor's interest or any part thereof, and the federal government when it is a party to any contract with the municipality or county.

'Person' means any individual, firm, partnership, corporation, company, association, joint-stock association, or body politic and includes any trustee, receiver, assignee, or other person acting in a similar representative capacity.

"Pocket of blight" means an area in which there is a predominance of buildings or improvements, whether residential or nonresidential, which by reason of dilapidation, deterioration, age, or obsolescence; inadequate provision for ventilation, light, air, sanitation, or open spaces; high density of population and

overcrowding; existence of conditions which endanger life or property by fire and other causes; or any combination of such factors, are conducive to ill health, transmission of disease, infant mortality, juvenile delinquency, or crime and detrimental to the public health, safety, morals, or welfare. "Pocket of blight" also means an area which by reason of the presence of a substantial number of deteriorated or deteriorating structures; predominance of defective or inadequate street layout; faulty lot layout in relation to size, adequacy, accessibility, or usefulness; unsanitary or unsafe conditions; deterioration of site or other improvements; tax or special assessment delinquency exceeding the fair value of the land; the existence of conditions which endanger life or property by fire and other causes; having development impaired by airport or transportation noise or other environmental hazards; or any combination of such factors, substantially impairs or arrests the sound growth of a municipality or county, retards the provisions of housing accommodations, or constitutes an economic or social liability and is a menace to the public health, safety, morals, or welfare in its present condition and use."

'Pocket of blight clearance and redevelopment' may include: (A) Acquisition of a pocket of blight or portion thereof; (B) Rehabilitation or demolition and removal of buildings and improvements; (C) Installation, construction, or reconstruction of streets, utilities, parks, playgrounds, and other improvements necessary for carrying out in the area the urban redevelopment provisions of this chapter in accordance with the urban redevelopment plan; and (D) Making the land available for development or redevelopment by private enterprise or public agencies, including sale, initial leasing, or retention by the municipality or county itself, at its fair value for uses in accordance with the urban redevelopment plan. (

'Public body' means the state or any municipality, county, board, commission, authority, district, housing authority, urban redevelopment agency, or other subdivision or public body of the state.

'Real property' includes all lands, including improvements and fixtures thereon and property of any nature appurtenant thereto or used in connection therewith, and every estate, interest, right, and use, legal or equitable, therein, including terms for years and liens by way of judgment, mortgage, or otherwise.

'Rehabilitation' or 'conservation' may include the restoration and redevelopment of a slum area pocket of blight or portion thereof, in accordance with an urban redevelopment plan, by: (A) Carrying out plans for a program of voluntary or compulsory repair and rehabilitation of buildings or other improvements; (B) Acquisition of real property and rehabilitation or demolition and removal of buildings and improvements thereon where necessary to eliminate unhealthful, unsanitary, or unsafe conditions, to lessen density, to reduce traffic hazards, to eliminate obsolete or other uses detrimental to the public welfare, to otherwise remove or prevent the spread of slums pockets of blight or deterioration, or to provide land for needed public facilities; (C) Installation, construction, or reconstruction of streets, utilities, parks, playgrounds, and other improvements necessary for carrying out in the area the urban redevelopment provisions of this chapter; and (D) The disposition of any property acquired in such urban redevelopment area, including sale, initial leasing or retention by the municipality or county itself, at its fair value for uses in accordance with the urban redevelopment plan.

'Slum area' means an area in which there is a predominance of buildings or improvements, whether residential or nonresidential, which by reason of dilapidation, deterioration, age, or obsolescence; inadequate provision for ventilation, light, air, sanitation, or open spaces; high density of population and

overcrowding; existence of conditions which endanger life or property by fire and other causes; or any combination of such factors is conducive to ill health, transmission of disease, infant mortality, juvenile delinquency, or crime and is detrimental to the public health, safety, morals, or welfare. 'Slum area' also means an area which by reason of the presence of a substantial number of slum, deteriorated, or deteriorating structures; predominance of defective or inadequate street layout; faulty lot layout in relation to size, adequacy, accessibility, or usefulness; unsanitary or unsafe conditions; deterioration of site or other improvements; tax or special assessment delinquency exceeding the fair value of the land; the existence of conditions which endanger life or property by fire and other causes; by having development impaired by airport or transportation noise or by other environmental hazards; or any combination of such factors substantially impairs or arrests the sound growth of a municipality or county, retards the provisions of housing accommodations, or constitutes an economic or social liability and is a menace to the public health, safety, morals, or welfare in its present condition and use.

'Slum clearance and redevelopment' may include: (A) Acquisition of a slum area or portion thereof; (B) Rehabilitation or demolition and removal of buildings and improvements; (C) Installation, construction, or reconstruction of streets, utilities, parks, playgrounds, and other improvements necessary for carrying out in the area the urban redevelopment provisions of this chapter in accordance with the urban redevelopment plan; and (D) Making the land available for development or redevelopment by private enterprise or public agencies (including sale, initial leasing, or retention by the municipality or county itself) at its fair value for uses in accordance with the urban redevelopment plan.

'Urban redevelopment area' means a slum area pocket of blight which the local governing body designates as appropriate for an urban redevelopment project.

'Urban redevelopment plan' means a plan, as it exists from time to time, for an urban redevelopment project, which plan shall: (A) Conform to the general plan for the municipality or county as a whole; and (B) Be sufficiently complete to indicate such land acquisition, demolition and removal of structures, redevelopment, improvements, and rehabilitation as may be proposed to be carried out in the urban redevelopment area; zoning and planning changes, if any; land uses; maximum densities; building requirements; and the plan's relationship to definite local objectives respecting appropriate land uses, improved traffic, public transportation, public utilities, recreational and community facilities, and other public improvements.

'Urban redevelopment project' may include undertakings or activities of a municipality or county in an urban redevelopment area for the elimination and for the prevention of the development or spread of slums pockets of blight and may involve slum pocket of blight clearance and redevelopment in an urban redevelopment area, rehabilitation or conservation in an urban redevelopment area, or any combination or part thereof, in accordance with an urban redevelopment plan. Although the power of eminent domain may not be exercised for such purposes, such undertakings or activities may include: (A) Acquisition, without regard to any requirement that the area be a slum or blighted area pocket of blight, of air rights in an area consisting of lands and highways, railway or subway tracks, bridge or tunnel entrances, or other similar facilities which have a blighting influence on the surrounding area and over which air rights sites are to be developed for the elimination of such blighting influences and for the provision of housing and related facilities and uses designed for, and limited primarily to, families and individuals of low or

moderate income; and (B) Construction of foundations and platforms necessary for the provision of air rights sites of housing and related facilities and uses designed for, and limited primarily to, families and individuals of low or moderate income or construction of foundations necessary for the provision of air rights sites for development of nonresidential facilities."
