ADDENDUM #3

To: ALL PROSPECTIVE FIRMS

Re: INVITATION FOR BIDS: **17-015-NT, Full Depth Reclamation & Deep Patch Overlay**

The Invitation for Bids, referenced above, is modified as follows:

1. Due date for submitting bids is now 3/16/17 @ noon.
2. Please see attached below for answers to questions received.

Please incorporate this change into the Invitation for Bid and acknowledge receipt of this addendum on your bid form.

Sincerely,

Desmond Schneider

Procurement Officer

- 1) On the 2017 Material Quantities Worksheet it has 387 tons listed for Marion Rd. in the Asphalt Column. Marion Rd. is not listed to receive any Overlay only Deep Patch. Please clarify this tonnage.
- 2) On the 2017 Material Quantities Worksheet it has 4,394 tons of Milling listed for Plantation Oaks Dr., but it looks like it should be 484 tons. Please clarify.
- 3) On the Bid Schedule in the proposal it looks like the tons of 9.5mm are understated. It looks like it should be +/- 18,079 tons. Please clarify.
- 4) On the Bid Schedule in the proposal it looks like the tons of 12.5mm are overstated. It looks like it should be +/- 1,282 tons. Please clarify.
- 5) Please clarify what the 600 cy of GAB is to be used for. Will it be used for the 10" of GAB in the Deep Patching on Marion Rd. and or the GAB needed on Orange Terrace Alley to correct the drainage?

1. There is no overlay to be applied to Marion Road; the volume of asphalt to be used at this location is 5" of 12.5mm to complete a deep patch to finish grade of the existing driving surface. The 5" patching is estimated to require +/-322 tons of 12.5mm asphalt.
2. The milling quantity for Plantation Oaks Dr. was misstated on the Estimated quantities worksheet. It has been revised to read 484 tons.
3. The majority of the roadways will be carrying a 2" overlay using 12.5mm asphalt (+/-14,308 tons) while a few roadways will carry a 1.25" overlay that will use a 9.5mm asphalt (+/-5375 tons). These roadways have been identified for each category in a previous email to the Macon-Bibb County Procurement Department.
4. The GABC item is included in the bid schedule as a fail-safe in the event areas require more intense patching than originally anticipated. It is easier to allot for unforeseen issues up front when approaching the Board of Commissioners for contract funding than to present a request for a contract modification after work has already begun. Yes, it can be used on the Orange Terrace alley if necessary.
5. Base Bid Asphalt Quantities:
 - 12.5 mm to be used in 2" overlay – (+/-14,308 tons)
 - 9.5 mm to be used in 1.25" overlay – (+/-5375 tons)
 - Additive Bid Asphalt Quantity: (+/- 220 tons)
