**ADDENDUM # 1**

To: ALL PROSPECTIVE FIRMS

Re: INVITATION FOR BIDS: 20-083-LS Central City Ball Fields

Questions and Answers

1. Does this project involve renovating or constructing athletic fields?  
**The project consists of field stripping, field construction, new irrigation, new fencing, new dugout and new covered bleacher stands.**
2. On sheet C-22 section A calls for a 2" ad rails and note 3 calls for 1"5/8 od rail what size do we use?  
**The 1"5/8 o.d. rail will be accepted for fence heights 6'-0" or less. All others 2" o.d.**
3. On pages C4 and C5, there are notes that state all the fencing to be black vinyl, but on detail 2/C21 there is a note that states the outfield fence to be galvanized. Please clarify.  
**The fence should be black vinyl.**
4. Please clarify the line post size for the 10-foot-tall fence.  
**3"**
5. To figure the 20ft backstop which drawing do we use? C4 & C5 (10' + 20.75' +10') or C18 (20'6" + 20'9" + 20'6")?
  - a. Using the same drawings as above---
    - i. What is the 20ft Bleacher fence length?
    - ii. What is the 20ft dugout fence length?**Use Sheets C4 & C5 for these dimensions.**

6. Note on C-21 - 2) "Outfield fences shall not have a vinyl clad finish all others to be black vinyl coated".
- What does "not have a vinyl clad" mean? **Use black vinyl fence.**
  - What's this 8ft fence fabric? **8' black vinyl fence.**

The note on C-20 says all fence to be "fused bonded pvc coated, color black" using 9ga core galvanized wire which means 8ga finish - which is the best grade of black fence available

**The fence should be black vinyl.**

7. C-22 and C-21
- There are arrows for 2"od rails.
  - The note on C-22 #3 "All rails shall be 1 5/8"od. (this is normal rail size--what size rails do you mean?)  
**1"5/8 o.d. rail will be accepted for fence heights 6'-0" or less. All others 2" o.d.**
8. Does the 6ft fence get a bottom rail or a bottom tension wire?  
**A bottom rail.**
9. I have the drawings and all I want to know is the name of the company that did the original survey. Can you provide me with their number? If not, then I need to find a surveyor in Macon. When I need to have the fence line staked, I always use the company that did the original survey.  
**Widner & Associates provided the survey. Coordination can be provided upon award for construction stakeout coordination.**
10. What material is to be used to backfill on the fields after we remove the turf and 4 inches? Can you direct me on this material to be used? Is it 4 inches of sand that would be rototilled into existing soil or is it a specific mix?  
**Add 3" of medium coarse to heavy coarse masonry sand and rototill with native soil.**

Please incorporate this change into the Invitation for Bid and acknowledge receipt of this addendum on your bid form.

Sincerely,

*Lauren N. Schultz*
