The layout will remain the same as it was before. Due to the damages, we will need start with repairing (hopefully not replacing) the roof, replace floor and ceiling tiles, cash counter, coffee counter, fixtures, paint, cosmetic changes and replace drywall as needed. Broken doors and windows will also be repaired. If there are any repairs to electrical/mechanical, a subcontractor will pull a permit. There is also some leaks and damage to the façade of the building that will be repaired. Below is a floor plan on the building which we will be base everything on. Please let us know if you

21MBC-CBP00216	07/09/2021	\$5,000.00	3769 RIDGE AVE, MACON, GA 31204	New Commercial Building	ALEXANDER IV LLC		This project was originally submitted and permitted by the State of GA and Macon/Bibb as a mixed use, Assisted living facility and Apartment Occupancy. The State only reviewed and permitted the Assisted Living portion. Upon its completion, it was determined that what was permitted as Apartment Occupancy should be changed to Assisted Living, thus the entire facility will be an Assisted Living Occupancy. This revision 6 incorporates revisions to the original construction documents previously permitted, as to document the required improvements for the conversion of permitted use. In summary, the changes included the following: 1.Changed the code summary pages to reflect: a.The Adopted 2018 IBC, LSC, and associated codes, rather than the originally used 2012 codes. b.Updated the areas designations and calculations to reflect the change from Apartments to Assisted Living. c.Included an updated Waiver from Macon/Bibb to reflect a change of a previously approved waiver to clarify the Assisted Living use rather than Apartment use. 2.Added 2 smoke area separation doors in walls that were already designed to be smoke tight, as to create smoke areas of less than 22,500 s.f. each. Such doors are placed on hold-open devices and are connected to the fire alarm to close upon signal. The Architectural and Electrical Drawings reflect such. 3.Change the sprinkler system at the portion being converted from Apartments to Assisted living, from NFPA13R to NFPA13 (sprinkler report included in submission). 4.Increased the number with Visible Fire Alarm Notification Devices from 4 to 7. 5.Changed lockset function to door 155A, to have an exit device with a magnetic lock that will unlock upon receiving an alarm signal. 6.The originally completed Civil, Structural, Plumbing, and
