Woodstock, Georgia 30188

June 25, 2022

To All Active Pension Plan Participants:

We are excited to announce that Macon-Bibb County is partnering with ACCG Retirement Services to manage the retirement plan business for Macon-Bibb County. The transition will “Go Live” on July 1, 2022. ACCG Retirement Services, a division of ACCG, has been administering governmental pension plans in Georgia since 1968. Macon-Bibb is partnering with professionals at ACCG Retirement Services to make retirement planning easy for every employee.

ACCG offers a comprehensive approach to pension plan administration by providing:

- An ACCG representative (Paul Bates) you can contact for retirement questions and guidance through the retirement application process;
- A service center with experienced benefit professionals to assist you;
- In addition to the service center and professional staff, Macon-Bibb County will have access to a participant online portal. This website will provide you with:
  - A pension calculator for retirement estimates
  - Downloadable forms/documents (retirement application / beneficiary designation / notice of retirement forms)

You will receive another communication after the July 1 “Go Live” date, which will provide you with:

- Contact information for Paul Bates;
- Service center phone number;
- Instructions on how to register and access the website; and
- Portal training will begin in July 2022 for all active participants.

Welcome to ACCG Retirement Services.
