

ATTACHMENT B

SCOPE OF SERVICES

Contractors interested in providing Asphalt Milling and Resurfacing Services shall provide all materials, equipment, and labor necessary for the completion of required paving services as needed by Macon-Bibb County. The successful contractor shall be expected to perform services on the following infrastructure.

1. In general, the work consists of the milling and hauling away existing asphalt pavement and repaving with Hot Bituminous Pavement (HBP), deep milling for areas with deep cracks and the patching of the areas, adjustment of manholes and water valves as needed and pavement markings and traffic signal loops where required for the roadway throughout Macon Bibb County identified by the contract.
2. All work will be in accordance with the current GDOT specification at the time of the issued Work Order, unless otherwise negotiated.
3. The Contractor shall make efforts to prevent or minimize erosion, sedimentation, and dust pollution.
4. the contractor shall be responsible for all traffic control required to accomplish the work.
